SEBASTIÁN PALLERO

JR FRONT-END DEVELOPER

Software developer with professional English and experience developing, designing and maintaining web applications in both English and Spanish. Specialized in React, Next, Angular and other frameworks.

SUMMARY

I am looking for a challenging job where I can improve my skills and make use of the knowledge acquired in these years of learning.

I am proactive, organized and responsible, with good predisposition for teamwork and always willing to learn something new in order to continue training my skills as a developer.

Team Work

EXPERIENCE

E-commerce Web Developer
Freelance Workteam (Oct 2022 - Jan 2023)

- Implemented the shopping cart feature for websites using React, Redux, and JS. I applied principles of SEO, design, and accessibility.
- Resolved critical issues, improved the performance and reliability of the JS codebase by applying best practices and optimal code, adding tests, and debugging logical errors.
- Implemented Firebase and NodeJS as the backend service, incorporating features such as authentication, cloud storage, analytics for websites, and Mercado Pago payment gateway.

Fullstack Development of a SaaS
retibo.ai (July 2023 - Now)

- Development, design, and deployment of a Software as a Service web app using Next.js, Prisma (MySQL), and Tailwind. Based on the OpenAI API.
- Prisma and PlanetScale implemented as the backend service, incorporating features such as user database and cloud data storage.
- Developed scalable and secure APIs to retrieve and manipulate data from OpenAI and the database (MySQL), ensuring optimal performance.

EDUCATION

Full-Stack and Mobile Developer
Coderhouse (Mar 2021 - May 2023)

Certificate on the use of Front and Back End technologies, for the creation and design of web and mobile applications using:

- CSS - SCSS - Tailwind
- JavaScript - TypeScript
- React - Angular - Next.js - React Native - Expo
- Node - Express - SQL - Prisma - Firebase
- Redux - Redux Toolkit - React Query

Bachelor in Law
**Universidad Nacional de la Plata
(Mar 2018 - In progress)**
